

Beez to Butterflies Chain – Basic Directions

a.k.a Emigma Chain, Gridlock

Aspect ratio: 4.3

Class exercise ring size:

- 18 AWG (1.02mm) 0.172" (4.4mm)

1. Construct a short length on 2-in-2 chain using 10 jump rings (6 green and 4 red).

2. Flip the two red rings back on one end of the chain segment (similar to the Byzantine Chain), insert a plain ring as shown, and close the ring. Note: the plain ring only goes through the two red rings. It does not go through any green rings.

3. Flip the two red rings back on the other end of the chain segment, insert another plain ring as shown, close the ring, and insert a tail wire through the two plain rings.

4. Construct another short length on 2-in-2 chain using 10 jump rings. Flip the two red rings back on each end of the chain segment, and connect it to the chain with two plain rings as shown.

5. Repeat step 4 until the chain is the desired length. Insert the last two plain rings on the end.
