

## Double Cross Linked Chain – Basic Directions

a.k.a. Diamondback

Aspect ratio: 3.0

Class exercise ring size:

- 16 AWG (1.29mm) 0.156" (4.0mm)

1. Make two basic units of 2-in-2 Chain with 6 jump rings each.

2. Connect the two units together as shown (the end of the first unit to both ends of the second unit so that it is crosswise in the chain) with 2 jump rings.

3. Make another basic unit and connect the end of the new unit to both ends of the previous unit.

4. Make another basic unit and connect both the ends into the end of the chain, so that it is crosswise.

5. Repeat steps 3 and 4 until the chain is the correct length, ending with step 3 (the final basic unit is connected by the end).
