

European 4-in-1 Ribbon – Basic Directions

Similar weaves: European 6-in-1 Ribbon

Aspect ratio: 2.9 or larger

Class exercise ring size:

- 16 AWG (1.02mm) 0.172" (4.4mm)

1. Close twenty of the plain jump rings.

2. Start by assembling a 3-wide chain. Place four plain rings on an open blue jump ring and close the blue jump ring.

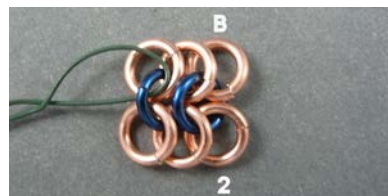

3. Arrange the rings as shown.

Open a blue jump ring and insert it up through ring "2" and down through ring "B", add two closed plain rings to the open blue jump ring, and close it.

4. Continue adding to the chain by repeating the previous step until the chain is the desired length

5. To make a wider ribbon chain, open a blue jump ring, insert it through the first two plain rings on the outside, and close it. Make sure the blue jump ring goes through these two plain rings in the same direction as the adjacent blue jump ring.

Open a blue jump ring, insert it through the 2nd and 3rd plain rings on the outside, and close it.

Add a jump ring to the 3rd and 4th rings, 4th and 5th rings, etc. until complete.

6. Make the ribbon as wide as desired by repeating the previous step.
