

## Not Double Lace Chain – Basic directions

Aspect Ratio: 4.6

Class exercise ring size:

- 16 AWG (1.29mm) 0.234" (6.0mm)

The Not Double Lace Chain is very similar to the Double Lace Chain, but has a rounder cross section. The difference is in steps 3 and 8. For the Double Lace chain these steps are one from the back and the other from the front, and for the Not Double Lace chain they are both from the same direction.

1. Close a green ring and put it on a tail wire. Close a blue ring through the green ring.

2. Close a red ring through the blue ring. Hold the chain up by the tail wire so the last three rings are as shown

3. Open a blue ring and pass it through the red ring from the back.

4. Lift up and back slightly and pass the same blue ring through the green ring(s) also from the back.

All patterns except the first will have two green rings at this point.

5. Close the blue ring.

6. Close a green ring through both of the blue rings on the working end of the chain.

7. Close a red ring through the green ring.

8. Open a green ring and pass it through the red ring from the back.

9. Lift up and forward slightly and pass the same green ring through the two blue rings also from the back.

10. Close the green ring.

11. Close a blue ring through both of the green rings on the working end of the chain. This completes one pattern of the Double Lacey Chain weave.

12. Repeat steps 2 through 11 until the desired length is reached.
