

## Shuttle Chain – Basic Directions

Prerequisite: Round Chain

Aspect ratio: 6.0

Class exercise ring size:

- 16 AWG (1.29mm) 0.313" (7.9mm)

1. Starting with a pair of blue rings, make 3 patterns of Round Chain (a.k.a Full Persian) to stabilize the start of the chain.

2. Close three plain rings between the previous pair of plain rings and through the two blue rings.

Note: In the Shuttle Chain pattern plain rings never go through plain rings, and blue rings never go through blue rings.

3. Rotate the chain until the plain rings are facing you and close a blue ring between the previous blue rings and through all five plain rings.

4. Close a blue ring outside of a blue ring from step 2 and through all five pairs of plain rings. Close another blue ring outside of the blue ring from step 2 on the other side of the chain and through all five plain rings.

5. Close a plain ring between the first and second plain ring from the previous step and through the three blue rings. Close another plain ring between the second and third plain ring from the previous step and through the three blue rings.

6. Close a blue ring outside the blue ring from step 4 and through all 5 plain rings. Close a second blue ring outside the blue ring from step 4 on the other side of the chain and through all 5 plain rings.

7. Repeat steps 2 through 6 until the desired length is reached.
